

Horizontal Mixer

Efficient Blending: Thorough, rapid and consistent ingredient blending.

Versatile Capacity: Handles multiple feed types and ingredients.

Easy Maintenance: Multiple access doors and removable end plates.

Durable Construction: Built for toughness and longevity.

User-Friendly Design: Low-mounted motor and side-opening gate

Flexible Discharge: Cantilevered discharge with 180° auger rotation.

Integrated Oil System: Built-in oil tank for weighing and spraying during mixing.

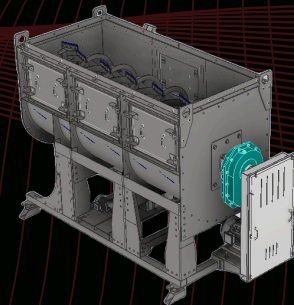

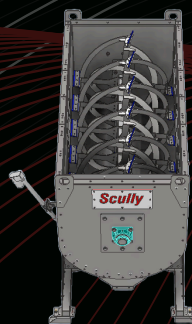

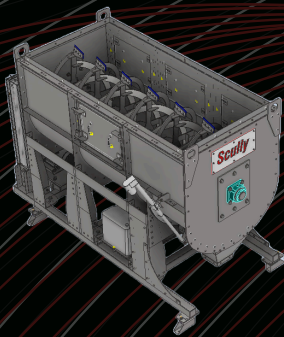

Customizable Options: Feeder boxes, electronic gates, and unique features.

Enhanced Performance: Dual-ribbon construction enable constant high-quality mixing.

Replaceable Components: Reducing downtime and maintenance effort.

Control at Your Fingertips: Integrated scales, oil systems, and optional speed control.

Built to Last: Innovative design and reliable and durable construction.
